Two Splendid Days Of FURNITURE Selling

We'll grant that the weather has been remarkably fine.

Every condition has been in our favor, and part of the tremendous success the last two

the result of these conditions. But it is gratifying to receive, in this splendid manner, such substantial assurance of public confidence in this semi-annual WANAMAKER move-We knew that we deserved such response. We knew

that stocks are better than they have ever been before. We knew that every price and value represented absolute facts. That every reduction marked was positive. That no valuation was placed on a piece of furniture that was not justified by the regular manufacturing cost of the mer-

But it means a great deal to us to realize that the public no longer discounts our statements. That what we say in our advertising columns is believed whon it is read.

We know it is a very easy matter to deceive the public in the matter of furniture. Even an expert could misjudge the value of a bureau to the extent of \$10 or more. In making comparisons it is easy to think that a sideboard that was seen ten blocks away, marked \$50, was as good as one we are showing at that price.

It requires considerable knowledge of furniture-making to look at the back of the furniture, the inside and underside of drawers and doors, the hardware and the joints, and estimate the difference in cabinet work, knowing which piece is well fitted together, and which is only stuck together with glue; which wood has been carefully dried before using, and which is green, and will warp out of shape with a few weeks of use.

Our experts know what is good, and they know what manufacturers to go to in order to place absolute dependence in the product of the factory. This means positive insurance to those who buy furniture in the Wanamaker Sale.

Every piece is guaranteed as absolutely as though you bought it in our regular stocks. We guarantee that the saving is absolutely as it is shown on the price-tag. We guarantee that no better furniture can be bought in any house in the country at the valuation figures.

And today we show you an entire floorful from Tenth street to Ninth street, from Broadway to Fourth avenue, and offer you selection for any room in your house, except the kitchen, at an average saving of a third of the ordi-

These are some of the reasons why the last two days have brought such splendid returns. There are reasons why those who did not come yesterday or the day before should come today or tomorrow, or while this Sale presents its opportunities
